Publication in IJHE provides wide exposure to journal articles and adds to the professional literature base of the field. Theoretical papers, literature reviews, and a wide range of genres along with research papers are invited for publication in the journal. As editor, I strongly encourage submissions to the journal. The papers included in this issue of the journal represent a diverse range of contexts. Twelve of the thirteen papers are refereed papers that were presented at the XX111 IFHE World Congress held in Korea in August 2016. The theme of the Congress was: Hope & Happiness: The role of Home Economics in the pursuit of hope & happiness for individuals and communities now and in the future. The next issue of the IJHE will also feature congress papers.
