

IFHE Council Meeting 1974

Recommendation

IFHE Participants in the Expert Consultation at Saint-Germain-en-Laye, France, April, 1973, formulated a Recommendation on Population which was presented to the Council Meeting. However, this Recommendation could not be adopted as it had not been submitted in sufficient time according to IFHE Rules. It was presented again and adopted at the next IFHE Congress in Ottawa, 1976.
